

■ Array Roadmap (DSA)

■ Basic (Foundations of Arrays)

Array operations (search, insert, delete)	Easy
Sum of array elements	Easy
Maximum and minimum in an array	Easy
Second largest in array	Easy
Array alternate printing	Easy
Reverse an array	Easy
Rotate array	Easy
Print the left element	Easy

■ Medium (Problem-solving with arrays)

Leaders in an array	Medium
Wave Array	Medium
Maximum Index	Medium
Equilibrium Point	Medium
Minimum distance between two numbers	Medium
Element with left side smaller and right side greater	Medium

■ Advanced (Subarray / Prefix / Kadane's Related)

Maximum Subarray (Kadane's Algorithm)	Medium
Subarray with given sum	Medium
Subarray sum equals K	Medium
Longest Consecutive Subsequence	Medium
Maximum sum path in two arrays	Medium
Product of array except self	Medium
Product array puzzle	Medium
Increasing Triplet Subsequence	Medium

■ Advanced Subarray / Stack / Monotonic

Container with Most Water	Medium
---------------------------	--------

3Sum	Medium
4Sum	Hard
Trapping Rain Water	Medium
Sliding Window Maximum	Hard
Largest Rectangle in a Histogram	Hard

■ Divide & Conquer

Convert Sorted Array to Binary Search Tree	Easy
Sort List	Medium
Construct Quad Tree	Medium
Merge k Sorted Lists	Hard

■ Kadane's Algorithm

Maximum Subarray	Medium
Maximum Sum Circular Subarray	Medium
